

Wound Management Fundamentals Course

Self-paced online learning followed by interactive skills training for individuals and agency cohorts.

Course Description

This course prepares healthcare professionals in various care settings (acute care, long-term care, ambulatory care, community-based) to practice evidence-based wound management with expanded skills and knowledge. Content is based on national wound management guidelines for a broad range of wounds.

Course Format

This course has two parts:

- **Online Learning:** The online phase of the course is taken independently to establish a baseline level of knowledge for each participant. Assignments are completed and submitted online. Course content can be accessed 24/7.
- **Workshop:** Following the online phase, participants attend an interactive workshop that includes additional lectures, demonstrations, and skill development. Virtual and in-person workshops are available for all participants. Co-sponsoring agencies can designate their own workshop dates and format.

Course Details

- **Credit:** 30 contact hours
- **Fee:** \$695**
**Agency rates available: cne.nursing.uw.edu/sponsorship/co-sponsor
